Good Feeling All Around

Everybody Happy

A Remarkable Year.

With this kind of feeling there is no reason why the farmers of this section should not feel good. We are making preparations to supply their needs in our various lines. At this time of year we are talking Mitchell, Studebaker and Old Hickory Wagons, which are the leaders in this territory, and we have the prices that are pleasing every one. Remember, we guarantee these wagons to be the strongest and longest lived wagons on the market. Since beginning business we have sold in the neighborhood of 2,000 wagons and we could not have done this if we had not had the best goods in the market and sold them at the right prices.

We are General Agents also for American Field Fence, which is the best fence on the market and stands like a stone wall. The L. H. & St. L. Railroad has contracted for this fence to be placed from one end of their road to the other, which is evidence that they have thoroughly investigated all other fence and decided on this because it

is the best. We have some inside prices for you for the next thirty days on all sizes, having just received four carloads and can make some good figures.

Saddles, Robes and Horse Blankets.

We have the largest supply in Hartford. We can save you money on this line and will do so. Remember, also that we have one of the largest hardware houses in Western Kentucky, and can furnish you hardware the same as everything else, at close prices.

The Famous Smoke Consumer Stoves are still in the lead. Please call and examine and you will be with the balance. Take one out and be convinced. We shall be glad to see you at our store where you will find an open hand and a hearty welcome.

HARTFORD HERALD

WEDNESDAY, NOVEMBER 15

FRANK L. FELIX, Editor and Proprietor.

Most any thing down in Panama goes, except "digging."

Norway and Sweden's peace is better subserved in "pieces."

Hind out Bob White, the gunners start out after you today.

President Roosevelt has decided that the "regular session" of Congress is quite sufficient for him.

It is said that when an Arkansas mob lynches the wrong man, it don't stop, but just keep on until the right one is found.

Wonder why the Republicans waited until after the election to bring out its usual annual "pad" of delinquent tax-payers?

The Democrats certainly got the best of it in the general elections throughout the State and Union, even if they did go down at home.

Secretary Shaw is doing all he can to protect the President from the efforts of the persons who are planning to force him to accept the nomination in 1908.

Secretary Wilson has announced that "Uncle Sam" has imported sixty-eight goats from Malta. Wonder if they are milk goats or "scape goats" for his department.

Some are so cruel as to remark that if the New Orleans people really want an early frost, they should send for Vice President Fairbanks. It is said he can produce shivers any time.

Secretary Shaw says the country is in need of a more elastic currency. He is right, what we need is one that will stretch over our rent and grocery bills and have a little left for a "rainy day."

It is reported that President Roosevelt and Secretary McLean have disagreed on the Chinese exclusion question. It looks to us like Congress is the proper place for such things to be determined.

There have been 183 cotton mills erected in the last three years and 405 of these have been constructed south of the Mason and Dixon's line. Really our glorious "southland" is making rapid strides to the front.

Mr. MYRON T. HERRICK was elected Governor of the State of Ohio in 1903 by a plurality of 113,812. One year later President Roosevelt carried the State by 255,421 and yet John M. Patterson, the Democratic nominee of 1905, for Governor, carried the State by a plurality of 55,000 a change of over 200,000 in one year.

A MAN in a certain town in Kansas thought he had a grievance against the editor of his home paper and consulted his attorney with the view of putting the paper out of business. His lawyer gave him wholesome advice when he suggested to his client that the surest way would be to buy the paper and run it himself for a few months.

The Hartford Republican says: "This county can neither be bought, nor sold, nor stolen with money."

The above needs no comment at our hands. While Ohio county has many as good people—in both parties—in her borders as can be found anywhere, yet it is bound to be conceded that there is a distressingly large floating element in the county which was given special attention by the Republican candidates and their backers at election day. In the face of these facts, it occurs to us, it would have been much better for the Republicans, their mouthpieces, to have been silent on the subject. Suffice it to say, we believe we vote the sentiment of the better element of the county when we say the recent election was the most corrupt ever held in Ohio county.

A FIGHT TO THE FINISH.
The Owensboro Messenger very truthfully says:
"Another pitched battle is at hand

in the warfare between the tobacco trust and the tobacco growers. The first engagement has been won again by the embattled farmer has fired a shot heard around the world. But the enemy against which they contend is, beyond question, the most powerful one with which the American farmer has ever had to fight—a foe as powerful as the forces which have driven the peasant of Europe down in the scale of civilization and enlightenment to be a brother to the ox.

The American farmer has been victorious in every contest in which he has engaged—will be victorious in this—but the fight is a bitter one and to the finish. It is the duty of every producer of a dollar's worth of wealth, whether he be a farmer or not, to give the cause his support, moral and otherwise. The farmers of Davies county, as of other tobacco growing counties, will find means sufficient to hold their tobacco until they can sell it at prices that will yield them a decent livelihood. Let no professed friend obstruct the way by chanting his skepticism."

Mobile, Ala., Nov. 11.—Dr. Henry Goldsmith, executive officer of the quarantine board of Mobile Bay, to-day received a cablegram from Dr. Deldgado, of the United States Marine Hospital Service, announcing the existence of two cases of yellow fever in Havana. The quarantine board of Mobile Bay immediately quarantined against the entire island of Cuba, pending further investigation. This action, however, will not restrict travel to and from the island in case of passengers from the North. The vessels will be fumigated.

Every Ounce You Eat.

Every ounce of food you eat that fails to digest does a pound of harm. It turns the entire meal into poison. This not only deprives the blood of the necessary tissue building material, but it poisons it. Kodol Dyspepsia Cure is a perfect digestant. It digests the food regardless of the condition of the stomach. It allows that organ to rest and get strong again. Relieves belching, heartburn, sour stomach, indigestion, palpitation of the heart, etc. Sold by J. H. Williams.

ONATON.

(Special to THE HERALD.)
After the landslide in Ohio county Olaton Democrats still have the courage

to come again. By looking over the returns of the election we find that if the rest of the county had come up like Olaton did, our poor old rooster would not have had a drooping head the day after the election. He seems like he has chicken cholera and we have a good remedy for that. Feed him on Pratt's Poultry Food for the next four years and we will have him up crowing again, like the Breckinridge county rooster. No doubt the landslide was a surprise to the Republicans as well as to the Democrats.

Several of the Olaton and New Bayms boys went to Yeaman, Grayson county, to play a match game of base ball. The Olaton-New Bayms boys rather mopped the boys up—so they report.

Williams' drug store: 35c.

ed Association Idea, Expires In London.

London, Nov. 7.—Sir George Williams, founder of the Young Men's Christian Association, and President of its London headquarters for twenty-five years, died yesterday.

Sir George was born in 1821. The story of his life is that of a man who once forgot self and never remembered it again. He was apprenticed to a dry goods dealer at an early age.

Before he reached his majority he conceived the idea that reading, recreation and religion might be combined to make a society that would be of benefit to young men. He found eleven other young men who fell in love with the scheme, and obtained permission from his employer to hold a meeting in the room over the store of his employer in London. They decided to call the society the Young Men's Christian Association.

When the Y. M. C. A. began, young Williams was earning exactly \$750 a year, and he gave \$250 of this sum annually to its support, and lived as best he could on what was left. Men who knew him declared him the "best giver in the world."
